**Proposed Solution for Learnhub Finder**

S. No.	Parameter	Description
1	<b>Problem Statement</b> (Problem to be solved)	Many learners struggle to find quality skill-based courses, personalized guidance, and practical learning opportunities. Similarly, instructors lack a centralized platform to deliver engaging content and interact with students effectively. Current platforms often lack scenario-based learning, progress tracking, and community-driven features, leading to low engagement and incomplete learning journeys.
2	<b>Idea / Solution Description</b>	LearnHub is a full-stack MERN-based online learning platform that connects learners and instructors. It offers interactive skill enhancement courses, scenario-based learning, real-time doubt solving, and certification on completion. Admins can manage users, courses, and platform analytics.
3	<b>Novelty / Uniqueness</b>	Scenario-based learning for real-world application <ul style="list-style-type: none"> <li>• Role-based access (Student, Teacher, Admin)</li> <li>• Integrated progress tracker and personalized dashboards</li> <li>• AI-powered course recommendations</li> <li>• Interactive quizzes, discussion forums, and live sessions</li> </ul>
4	<b>Social Impact / Customer Satisfaction</b>	<ul style="list-style-type: none"> <li>• Promotes continuous learning and upskilling for students and professionals</li> <li>• Supports instructors with global reach and monetization opportunities</li> <li>• Builds a collaborative learning community</li> <li>• Bridges the gap between academic knowledge and practical skills</li> </ul>
5	<b>Business Model (Revenue Model)</b>	<ul style="list-style-type: none"> <li>• Freemium model: Basic access for free, premium features for a fee</li> <li>• Subscription plans for advanced learners</li> <li>• Commission-based revenue from instructor-led courses</li> <li>• Corporate training packages for enterprises</li> </ul>
